

4 WAYS TO REDUCE BAD DEBT

BAD DEBT

is considered unrecoverable and directly decreases a health system's revenue stream. Minimizing or eliminating bad debt can increase revenue and drastically move the revenue needle.

1 IDENTIFY BAD DEBT EXPOSURE EARLY

Adjust workflows to eliminate bad debt exposure early and close vulnerability gaps.

2 EDUCATE PATIENTS ABOUT ALTERNATIVE PAYMENT OPTIONS

Comprehensive care includes finding the best payment option for each patient.

3 LEVERAGE TECHNOLOGY WITHIN THE WORKFLOW

An analytics platform predicts propensity to pay and accurate procedure costs.

4 UNDERSTAND THE TRUE COST OF CARE

Leverage granular, service line-specific data to minimize bad debt at every level.
