

# Ignite the Future of Healthcare Innovation

Healthcare is overflowing with data—but the challenge remains: how do you translate all that information into real, measurable improvement? At Health Catalyst, we combine proven methodologies with powerful technology and new innovations—creating the clarity and confidence necessary to achieve measurable improvements and deliver better patient and operational outcomes.

**We've always been focused on measurable improvement—and now we're helping you take it further.**

For nearly two decades, we've partnered with healthcare organizations to solve their toughest challenges. Along the way, we've built a foundation of trusted data, evidence-based practices, and measurable results.

Now, we're bringing those insights into a new era. By pairing advanced AI with our deep healthcare expertise, we deliver next-generation intelligence you can trust—avoiding the noise and focusing on what actually drives outcomes. With Health Catalyst, you can move from data to decisions, from insight to action, and from today's pressures to tomorrow's possibilities.

We give healthcare leaders the **clarity and speed** they need to confidently **solve their greatest challenges** and **drive measurable improvement.**

## Health systems have improved care and saved millions in costs with Health Catalyst solutions:

**\$2.2B** in client-approved measurable improvements

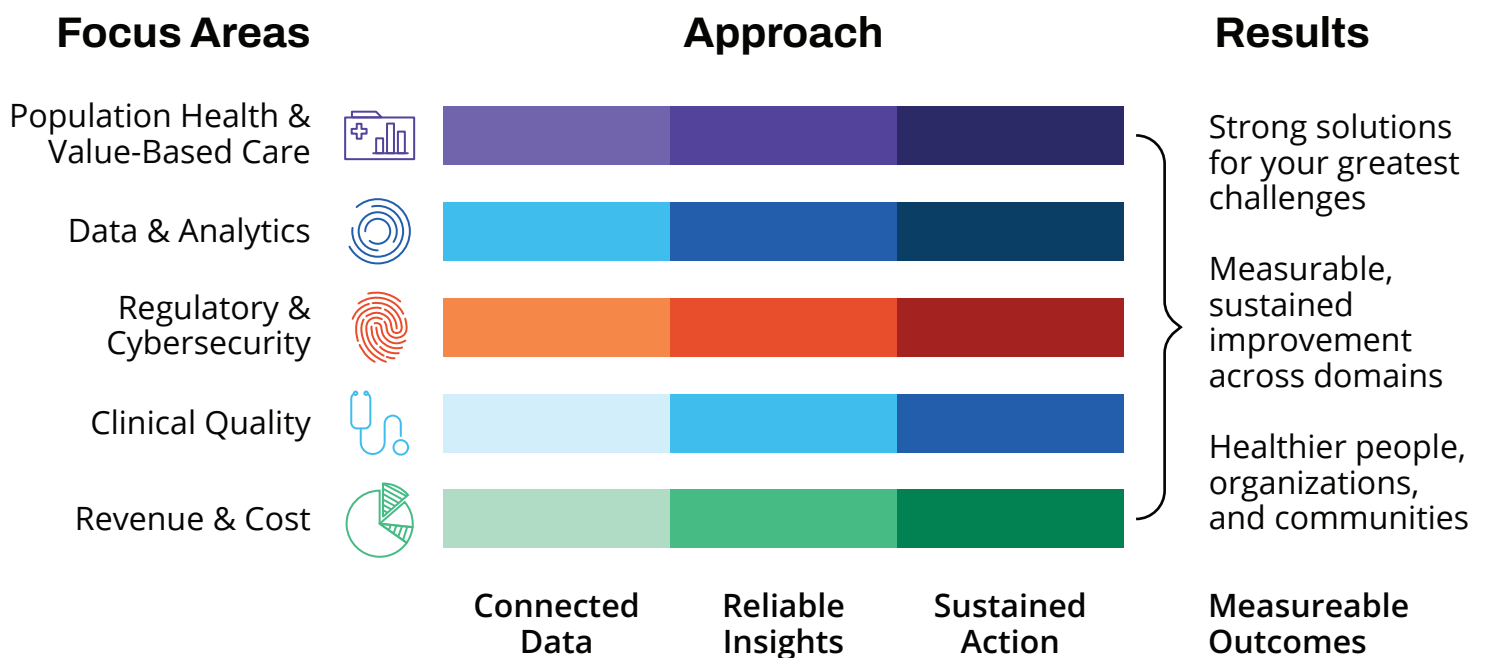

**365+** documented case studies

**1,000+** organizations served

**Millions** of patient lives positively impacted

Start Anywhere. Improve Everywhere. Health Catalyst empowers you to drive meaningful change across your organization.
