

INSIGHT INTO THE 2024 ICD-10 PCS UPDATES
SEPTEMBER 28, 2023
WEBINAR FAQ DOCUMENT

1. Question – Is Medicare paying for the New Technology procedures and devices?

Answer- Medicare does not separately pay for every ICD-10-PCS code in the New Technology section, meaning those in the 'X' section. Each year in the Inpatient Prospective Payment System (IPPS) rule-making process, CMS reviews requests for New Technology Add-on Payments (NTAPs). Services, procedures, or devices that are approved for NTAP status and those that are removed from the NTAP payment are discussed extensively in the IPPS proposed and final rules. A list of current items that qualify for NTAP payment is available on the Data Dashboard on Vitalware®.
